## DETAILED ACTION

Page 2

Claims 43-35 and 49 are pending in the case.

Any rejection of record in the previous action not addressed in this office action is withdrawn.

The following is a new grounds of rejection.

## Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 43-45 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 43, and by dependence, claims 44 and 45, are vague and indefinite in the recitation of "known nucleic acid sequences", since it is not clear what is encompassed by the claim. It is not clear which nucleic acid sequences are intended, since the sequences are defined by a mental state of an undefined observer. For this reason, the claims are vague and indefinite since the intended metes and bounds are unclear.

Claim 49 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
